

CRYSTAL DAIGLE  
FINE ART

## Artist Statement

I harness nature's inherent support and highlight unseen, positive forces in my nature-centric psychic art installations, oracle cards and collages, bridging the viewer to a deeply familiar state — serenity.

I'm motivated by my own experiences of trauma and alienation which lead to the discovery of my vast internal resources which I now employ to help myself and others live in optimal daily rhythms.

I aim to counteract the epidemic of burn out and disconnection affecting millions — especially women — by offering a mirror of the internal wisdom we all possess.

From this place of spaciousness, we freely advance in the direction of our choosing, while protecting the planet and each other.
