Sculpture Walk

Sculpture has been an integral part of the history of Silvermine Arts Center, beginning with our founding member, Solon Borglum. In support of the spirit of our roots we have created a public sculpture walk on the Silvermine grounds. The walk features a selection of key pieces in our permanent collection, along with loans from prominent present and past guild members and faculty. Each sculpture, in a variety of styles and media, is accompanied by signage and contextual information. We hope you enjoy strolling our grounds on this self guided tour where you can walk by a sculpture or walk all the way around it. Sit and enjoy the view by the pond, or simply appreciate a single sculpture. You can tour the sculpture walk and garden with your family and friends or help your children find the pieces on their *Sculpture Art Spy*.
