

## Connie Brown – Artist Statement

My paintings are a riot of color. Color creates signs of life, energy, whimsy and joy. My long experience as a three-dimensional artist informs my preference for sensual, amorphous and monumental shapes.

Painting on wood panels with acrylic flows, pastes and mediums, I develop the surface with continuous editing and refinement through rubbing, dripping, sanding, drawing and mark making.

I'm addicted to the puzzle of color, the construction of shapes and how they relate to each other. My paintings are born from one another, each shaping the other through exploration and experimentation.
