

SALLY LELONG

Artist Statement

I am a studio artist who works in whatever media best convey my thoughts and feelings in compelling ways. My sculptures, paintings, prints, videos, and graphics reflect my quest to visually express myself and invest my work with aesthetic experiences worthy of exploration. Whether making intimate statements or theatrical installations, the essence of my work lies in the responses it elicits from viewers and how those interactions with my work resonate with them over time. Creating such connections gives meaning to my practice and sustains my artistic ambitions.
