About JC Marbling

Owner and Marbler
Jennifer Omaitz

JC Marbling was established in 2016 as a marbling and book arts studio located in Kent, Ohio. We are a small, dedicated studio specializing in unique books, experimental designs, and hand-marbled paper. Our team consists of one full-time artist and marbler, Jennifer Omaitz, along with her apprentices. All of our marbled paper is hand-made, and our books are hand-bound.

At JC Marbling, we honor the rich tradition of marbling, which originated in England, France, Italy, Spain, and Turkey. However, we also embrace innovation by exploring bold color combinations and employing double and triple dip methods. Our goal is to bring this ancient art into the 21st century through experimental designs, educational offerings in marbling and bookmaking, and a commitment to high craftsmanship standards.

Currently, our product range is limited, but we are actively expanding our collection. The items featured in this catalog meet our core standards of quality and artistry. Due to our small workspace and dedication to craftsmanship, we work in small batches, emphasizing attention to detail, precision, and aesthetics.

Thank you for your interest in our products and the art of marbling. We look forward to the opportunity to work with you!

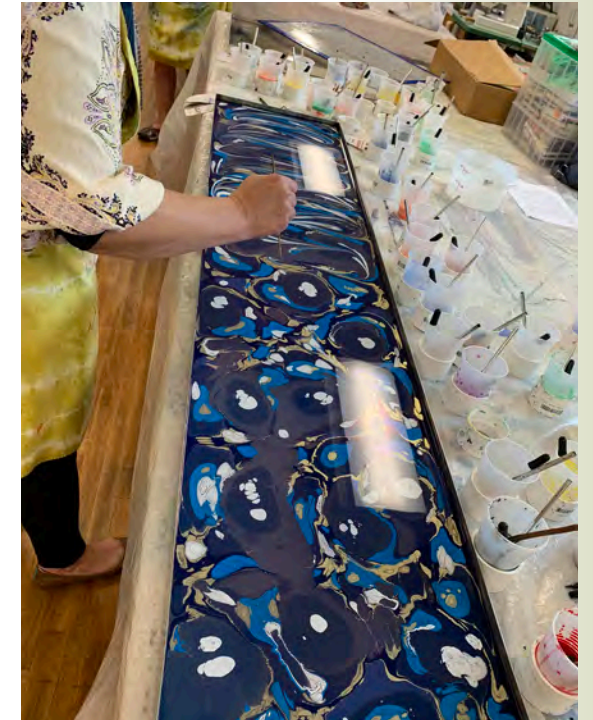

Image to the left is of our current collection of Coptic stitch books. Image to the right is a close up of one of our fern or fountain marbles.

Workshops

Our community outreach efforts encompass offering marbling classes at The Morgan Paper Conservatory, Kalamazoo Book Arts Center, and other venues in our local radius. We often engage with the local community through participation in the Farmers Market, where we provide education on the art of marbling and the craft of bookmaking. We are committed to expanding our engagement with new communities and actively seek opportunities to collaborate and showcase the art of marbling and book arts in diverse settings.

Image to the right is an example of Jennifer Omaitz at work during a paper marbling workshop. We do bookbinding and silk scarves marbling classes. Images provided show a selection of work in progress during these workshops.

New Products

We are constantly experimenting with new book structures and products in our featured line. Often we test new items out until we are confident that production and construction stand the test of normal rigor. In 2025 we introduced the products below and are in the process of making new books.

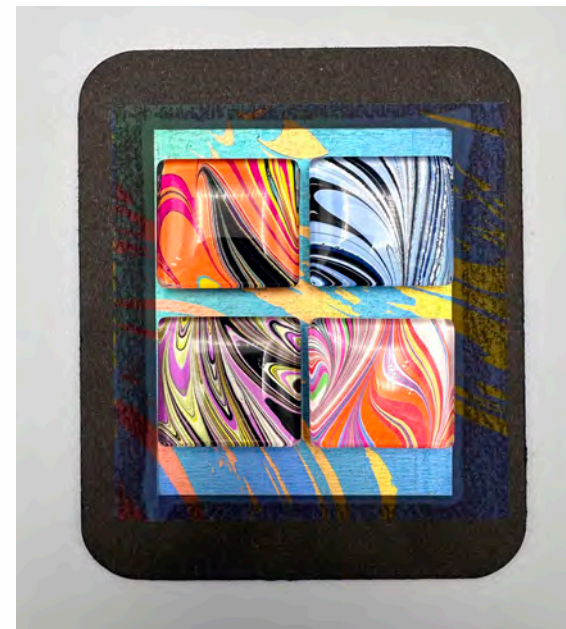

Image to the right is an example of our marbled magnet 4 pack. Each set is packaged with a small steel plate for adhesion of magnet. Image in the corner of the page on the right is of our new List books. These are perfect bound and pocket sized for that quick daily list of needs, ideas, or items.
