FOR IMMEDIATE RELEASE

Standard Space Gallery Presents *New Perspectives*, a Solo Exhibition by Sam Posey

SHARON, CT – June 11, 2026 — Standard Space is pleased to announce *New Perspectives*, an exhibition of recent abstract works by artist Sam Posey. The exhibition will run from June 13th through July 12th, 2026, with an opening reception on Saturday, June 13th, from 5:00 to 7:00 PM.

New Perspectives brings together a compelling selection of works that highlight Posey's evolving exploration of texture, gesture, and form. The exhibition showcases the artist's ability to navigate vastly different scales and motifs, ranging from the pastoral abstraction of *Cows* (12" x12") and the sweeping, kinetic arcs of *Camera* (12"x12") to expansive, intricately layered pieces like *Collage 1* (22"x28") that incorporate heavy acrylic applications and paper elements.

Central to Posey's contemporary style is a deeply physical engagement with the canvas. Rather than working from a place of detached precision, Posey allows the natural resistance and unpredictable kinetics of the body to dictate the terms of his process. This relationship with his medium introduces a distinct tension between deliberate intent and involuntary gesture. Using dense, tactile applications of impasto alongside structural collage, Posey transforms the physical realities of the studio into a search for structure on the canvas.

This command of spatial awareness, split-second intuition, and intense focus directly informs his practice, tracing back to Posey's background as a former Formula One race car driver. The relationship with speed, line, and geometry that defined his racing career now serves as a foundational element of his visual language.

Beyond the studio, Posey maintains a long-standing association with Lime Rock Park, and remains an active supporter of the arts through his philanthropic awards to both emerging and established artists in the creative community.
