*"Hurricane Becomes a Cloudy Day* is a series of vibrant oil paintings by artist Danielle Klebes in which beauty and uncertainty collide.

Klebes uses bright appealing colors to depict potentially uncomely subjects including old, dented, and broken down cars, storm clouds, and solo cups littered on the ground. The scenes hint at a subtle unease, as if they are on the cusp of impending change.

The paintings explore themes of loneliness, nostalgia, and a sense of the in-between."
